Experiment	06

1. Clarity Dashboard

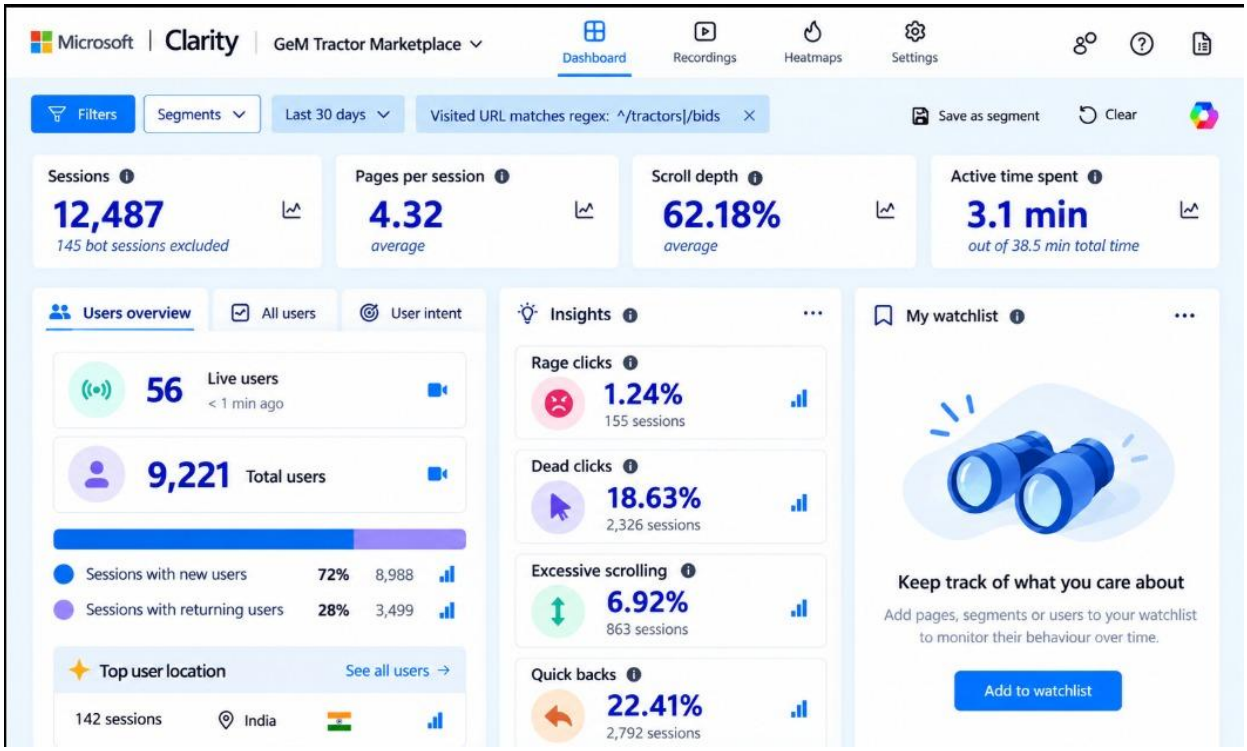

Figure 1: Illustrative dashboard overview for GeM Tractor Marketplace (last 30 days): sessions, pages per session, scroll depth, active time and behaviour insights.

2. Session Recording – Home Page

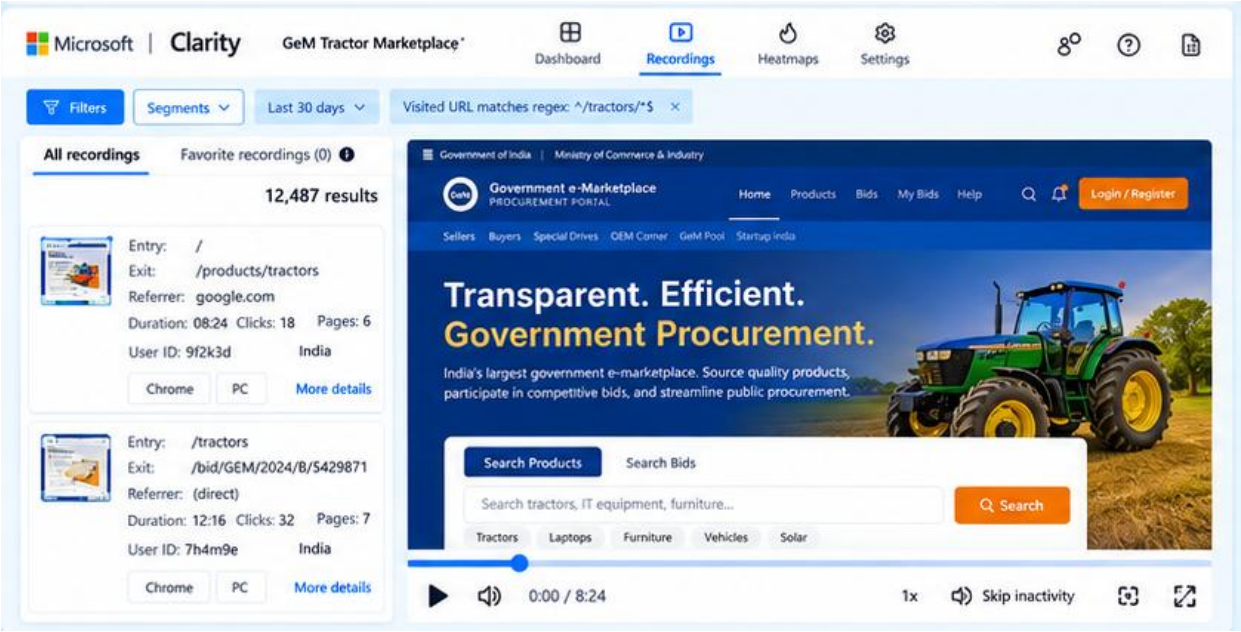

Figure 2: Illustrative session recording list with a visitor landing on the GeM home page and moving towards the tractor search and the Tractors shortcut.

3. Top Pages, Devices and Referrers

Figure 3: Illustrative breakdown of top pages, devices, browsers, referrers and countries for the GeM Tractor Marketplace.

4. Attention Heatmap – Home Page

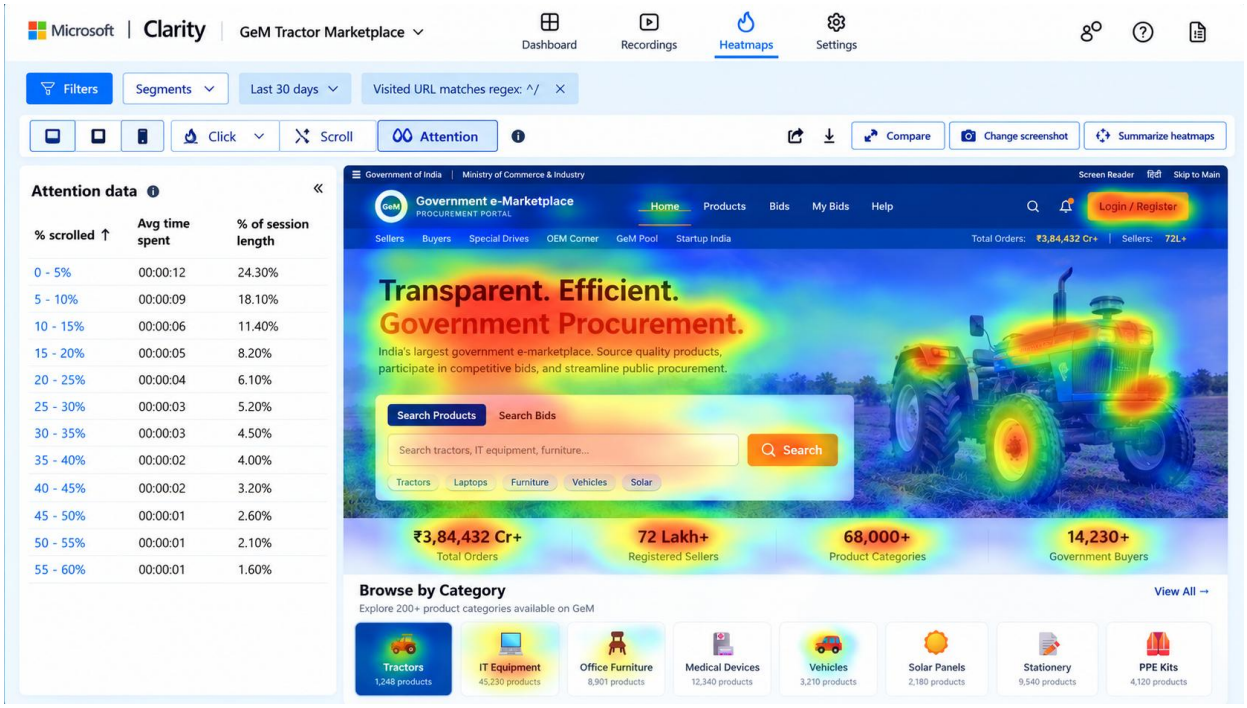

Figure 4: Illustrative attention heatmap showing where visitors spend the most time on the GeM home page, with the attention data by scroll depth.

5. Attention Heatmap – Tractor Pages

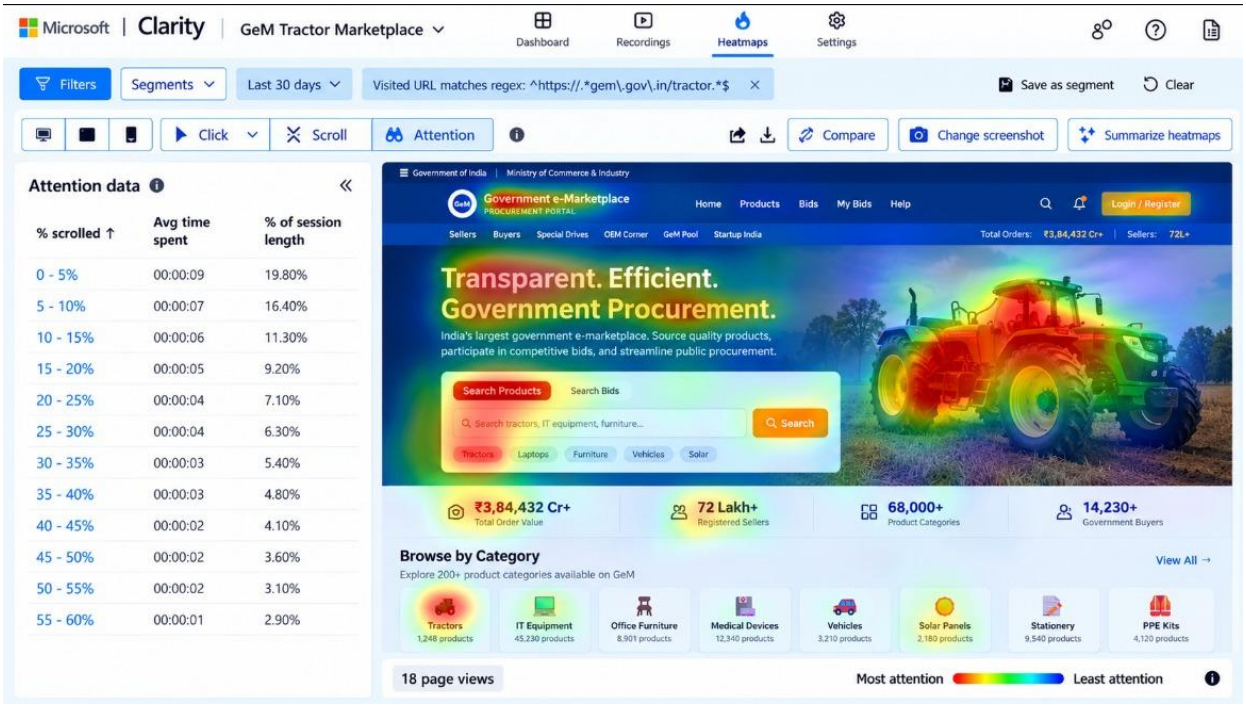

Figure 5: Illustrative attention heatmap filtered to tractor-related URLs, showing the search box, Tractors chip and Tractors category tile.

Note: Microsoft Clarity needs its tracking code installed on the site being measured, and gem.gov.in is not owned by the author. The screens in this document are therefore illustrative mock-ups of Clarity output for the GeM Tractor Marketplace and do not contain data from a live Clarity project.
